Coffee Maker WONDERCHEF Regenta Automatic Machine

Wonderchef Regenta 20-Bar Automatic Coffee Maker is a powerful espresso machine for rich, aromatic espresso shots with thick crema. Witness the machine create a wide range of cafe-style beverages like cappuccino, latté, macchiato or ristretto.

- **One-Touch Coffee Experience:** Wonderchef Regenta 20-Bar Automatic Coffee Maker allows you to enjoy your favourite coffee at the touch of a button. Just Choose your favourite coffee on the LCD panel to craft the perfect espresso shot, cappuccino or latte.

- **The Perfect Pairing:** Wonderchef Coffee powder with its medium-dark roast, bold flavour profile, full-bodied richness and fine grind is the perfect pairing for 15-20 Bar Espresso Machines. Fine ground powder in a porta filter provides the necessary resistance for boiling water being pumped through it under very high pressure. This method draws out the optimal flavor and essential oils from the coffee, producing a luscious, velvety crema. Our coffee is crafted exclusively from naturally sourced, high-quality coffee beans. **Enjoy a complimentary sample** with your coffee machine. Savor each moment, and let it linger...

- **Automatic Frothing:** Simply fill the porta filter with fine-ground coffee powder, fix it in and switch the machine on to get a great espresso shot. If you have selected cappuccino or latter, the machine will automatically extract milk from the container, froth it appropriately and add it to the espresso shot to give you perfect coffee every time.

- **Enticing Flavour & Aroma:** The 20-Bar pressure extracts the ideal flavour and essential oils from coffee grounds, delivering a rich crema on top with the creamy taste that coffee connoisseurs crave.

- **Perfect Gift Option:** Wonderchef Regenta 20-bar coffee make combines convenience and style with cutting-edge technology. It's thoughtfully designed for coffee lovers, making it an ideal gift.

- **Easy-to-use Porta Filter:** Achieve smooth and consistent coffee with the metal porta filter designed for thin-grind coffee powder, ensuring a grit-free experience.

- **Optimal Heating:** Double thermo-black feature provides faster and more uniform heating, guaranteeing consistent and precise brewing every time. Say goodbye to lukewarm coffee and enjoy each cup at your leisure.

- **Easy to Clean:** Just at the press of a button, the machine will clean itself, saving you time and effort.
