Sandwich Griller LIFELONG Classic Pro - 750 W

With a 750-watt heating element, the Lifelong Sandwich Maker produces consistently crisp and speedy results. Because of its strong strength, your bread will be grilled in less than a few minutes.

With its automated front lock, the Lifelong Sandwich Maker offers you a hassle-free experience. Even when the machine is operational, it feels cool to the touch and is comfortable to grip.

The sandwich toaster is incredibly user-friendly because it has a power light indicator. After the unit heats up, the red light turns on, and after the meal is done, the green light turns on. It is therefore very safe and simple to use.

The exquisitely crafted Lifelong Sandwich Maker features aluminium grill plates that can hold two bread sandwiches simultaneously, enabling perfect preparation and crispy grilling of your bread.

Warranty - 1 Years
